MONROVIA

45 MINUTES FROM BROADWAY, LOS ANGELES

Monrovia, where the sunkist oranges grow, is situated 18 miles east of Los Angeles in the heart of the San Gabriel Valley orange belt along the foothills of the San Gabriel mountains at an elevation of from 450 to 1100 feet.

Monrovia, a city of more than 11,000 population, is served by the Santa Fe Railway System, the Southern Pacific Lines, the Interurban Pacific Electric Railway, and two of the famous paved highways of Southern California—Foothill Boulevard and Huntington Drive.

Industries---Ranches---Suburban Homes

Monrovia has a 108-acre manufacturing district upon which are located the R. R. Colby Metal Industries, among which are tractor, automobile truck, vacuum street sweeper, automobile, iron foundry and machine shops; also the largest date packing plant in the world, the Valley Packing Corporation; eight citrus fruit packing houses, packing the famous "Sunkist" oranges, lemons and other brands; the Day & Night Water Heating Company with an annual payroll exceeding $100,000; the Pioneer Nursery, the second largest nursery in Southern California, with an annual payroll exceeding $100,000; the Coast Heater Manufacturing Company; the Twinko Broom Manufacturing Company; the B. R. Davisson Contracting cement pipe plant; Hygiene products plant, Matteson Mfg. Co. sash door factory, California Cement Products Co.; a half million dollars invested in the poultry industry; and one of the principal avocado producing districts in the state; a modern ice plant; three newspapers; four banks; four lumber companies; creameries; light and power companies; modern laundry; telephone and telegraph companies and modern hotels. Beautiful homes, modern schools, all-year climate, unlimited water supply, suburban transportation, recreational facilities, first-class amusements, a splendid retail business district and public spirited citizens all tend to make Monrovia "The Gem City of the Foothills."

Monrovia is growing substantially and wise investment in business, land, houses, apartments, agriculture and manufacturing pursuits should be profitable to the investor.

Compare Monrovia's industrial and suburban home advantages with any other city and you will understand that it is only by comparison that Monrovia grows substantially with Los Angeles County.

Street and Avenue Guide
and Householders Directory

In this department of the City Directory the streets are alphabetically arranged and described by giving the point of commencement of each street and its line of direction.

The number of each building on the street is given in the order of occurrence.

Following the number is placed the name of the householder occupying it.

The profession or business of individuals and firms is only given at their respective places of business; to find the occupation of householders, refer to Alphabetical List of Names.

THE CITY DIRECTORY——

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the lists of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth.

A modern up-to-date method of getting what you want

ONE OF 200 POLK DIRECTORY LIBRARIES

This Little Library Can Answer 945,000,000 Questions

MANY TRIPS AT YOUR FINGER-TIPS —
SAVE MANY MILES, MINUTES and DOLLARS

There are over 300 of these directory libraries in the United States. They are installed and maintained by the Association of North American Directory Publishers as part of the service given to directory advertisers.

Think what this means to you in effort, time and money saved. You want to know the relationship of the signer of a letter to the firm he represents—the directory library has the answer; someone you vitally need to get in touch with in a distant city has moved; business addresses or firm names have changed—the directory library has the answer. Public officials have been replaced by new elections; location of real estate is desired—again the directory library holds the answer.

Of course you could write or phone for the data you desire, but maybe you don't know just who to approach—the directory library has the answer.

This service is free, for single reference, to the public.
